

Microchipping

Course No. 24565

Qualification: TAFE PLUS Statement

National Code: n/a

Pre-Requisites: There are no entry requirements for this course. The completion of First Aid for Animals – Basic, and First Aid for Dogs and Cats – Basic, or equivalent, is highly recommended for the students management of animal wellbeing. applicants are reminded that the welfare and ethical treatment of animals is a priority in this course.

Learn how to microchip dogs and cats. On successful completion of this course, participants will be eligible to apply for accreditation by the NSW Department of Local Government as an authorised identifier of dogs and cats. (NSW Companion Animal Help Desk 1300 134 460.)

On completion of this two day workshop, students have two months in which to satisfactorily implant microchips in 15 dogs and cats under the supervision of a veterinarian. At least 5 must be dogs and at least 5 must be cats.

As the implementation of microchips in animals involves an element of risk both the animal and to handlers, students are advised to obtain public liability insurance.

Students are also advised that they will need to purchase, or have access to a microchip reader for confirmation of successful implantation. These microchip readers (Multichip types) cost between \$300 and \$900 depending on the brand purchased.

Course Requirements: Students need to wear sensible clothing and closed shoes. Our canteen is open on Friday for hamburgers, sandwiches, etc. Lunch will be provided on Saturday.
